

April 2018

I am the mother of Keiji who has attended the principal Greg's class at Hello Kids for roughly 5 years now under a twice a week schedule. Through the very effective teaching he delivers at his school (the thematics style), Keiji learned an incredible amount of English and when he entered Elementary school (1st year) he took-then-passed, at the high-school-equivalency, an English test from a leading, national preparatory school. His higher rank in the test earned him notoriety in the district where he lives from a test taken by 1000's of other children. I just wanted to write this letter as a thank you for all the hard work and dedication Keiji has experienced. Through all of the excursions, activities and technical learning he experiences at the school, Keiji has developed into a responsible, courageous and successful English student able to communicate clearly and with confidence!

Your sincerely,

Keiji's mother
